Under the water conservation plan and drought contingency plan there are limits to the use of sprinkler systems. If a new home requires more than two days per week watering to establish new sod or landscape, the contractor/owner must apply for a variance. There is no guarantee the variance will be granted if under the drought contingency portion of the plan. For more information on water conservation or to request a variance: <https://www.cityofallen.org/929/Water-Conservation>

Applicant's Signature: _____

Date: _____

Print Name: _____

Phone: _____

By signing this you have agreed that all boxes have been checked and all information has been submitted. Failure to submit all information may delay the review of your permit.
